

Do 0 ao endpoint com RAD Server

{Landerson Gomes

Desvende o caminho das pedras para a criação de servidores REST com o RAD Server, o framework da Embarcadero pronto para criação de aplicações backend.

Quem sou eu?

The screenshot shows the 'embarcadero' logo at the top. Below it is a dark grey menu with the following items:

- Users (with a person icon)
- Groups (with a group of people icon)
- Installations (with a smartphone icon)
- EdgeModule (with a grid icon)
- Resources (with a grid icon)
- Analytics (with a magnifying glass icon and an upward arrow on the right)

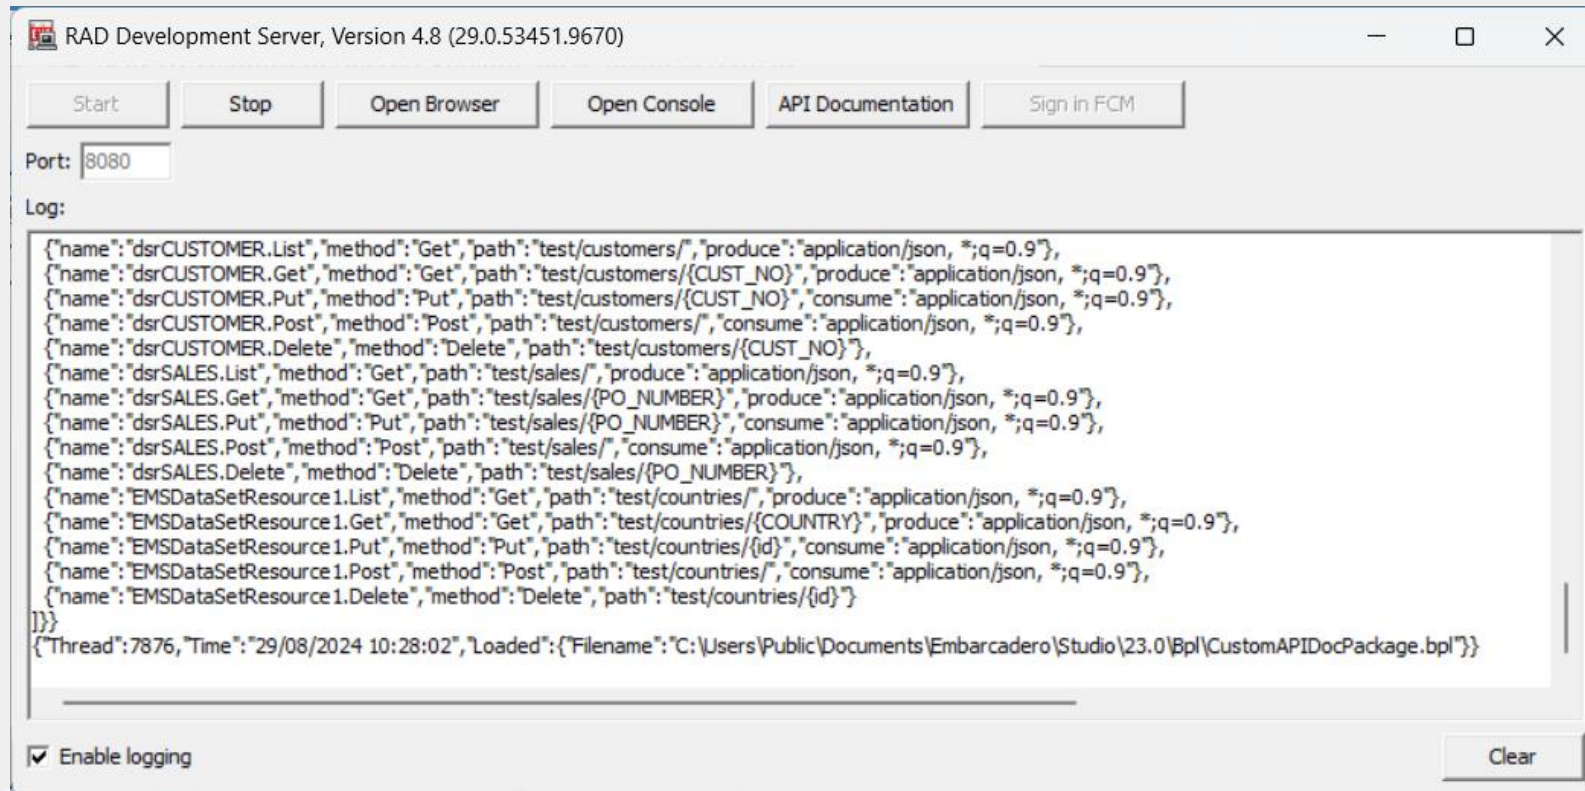

Under the 'Analytics' section, there are three items, each with a lightning bolt icon:

- Total Clients
- API Calls
- API Call EndPoint

At the bottom, there is a light blue bar with the 'User Analytics' item (with a magnifying glass icon and a downward arrow on the right).
